Dear Honorable Judge Dearie,

As a synopsis of our last conference it was concluded on records that Ornstein requests per "allegations" were dismissed and needed to be refilled by September 2 2015 and that I was to submit a reply by September 21 in preparation of our scheduled conference in October.

However ,Orenstein has maliciously attempted means of letters and emails, to breach such judgment by forcing the defense to produce documents before set dates and has even accused the defense of being in default for not doing such.

I request a conference to address above violations and concerns on official court records with witness such as yourself for I refused to have my right further vitiated.

As I am a full Time missionary as stated on records.

I will be available on Friday August 21 for an in person appearance at noon.

Sincerely.

Doris Henriette Yembe , Proud follower of Jesus Christ

John 8:32 and you shall know the truth and the truth shall set you free
